

CXD-400: Designing App and Desktop Solutions with Citrix XenApp and XenDesktop

Course Overview

This course provides students with the ability to successfully assess and design a XenApp and/or XenDesktop virtualization solution based on the top key projects and architectures that a majority of Citrix customers implement, across different industries and use cases. Students may also have an opportunity to build a design for their organization and will have access to all of the tools and reference materials required to support their work.

Who should enroll in this course?

This course is recommended for desktop virtualization solution designers such as Architects, Consultants, and Engineers.

Preparatory Recommendations

Before taking this course, Citrix recommends that students have:

- Intermediate knowledge of Citrix Desktop Virtualization Components/Concepts
- Basic understanding of project management and documentation best practices
- Basic presentation skills
- Windows Server Knowledge (Windows Server 2012 R2) including
 - Active Directory
 - DHCP
- Basic Networking Knowledge
- SQL Server - General understanding of databases, permissions, security, high availability
- General understanding of physical and virtual storage
 - NAS, SAN, SSD
 - CIFS
- Familiarity with hypervisor technologies (XenServer, Hyper-V, or vSphere)
- Completed XenApp and/or XenDesktop Introduction and Deploying courses or can demonstrate equivalent knowledge.
